Re: Stream Encroachment No. E-888

Dear Mr. Lawson:

This is with reference to a previous directive from this Bureau ordering the submission of a stream encroachment application or removal of unauthorized landfill.

Since we have been advised that the unauthorized landfill has not been operated since 1953 as stated in an affidavit from the company's last plant manager, the matter shall be considered officially closed. No further action shall be taken by this office.

Very truly yours,

ei
